

"IF YOU WANT TO BE MORE PRODUCTIVE, YOU NEED TO BECOME MASTER OF YOUR MINUTES".

In this era, we tend to use lots of online OTT platforms it has become more difficult to manage the subscription of all these applications. Finally, we have found a solution . So we proudly present, "**SUBman**".

WHAT ARE THE BENEFITS ?

SUBman is an application that manages our subscriptions of OTT platforms like NetFlix , amazon prime , Hotstar , Voot kids and youtube premium. This application reminds the user about their subscription renewal two times. Users will be notified two times when 3 days are remaining and also the last day for the payment of auto-renewal of these subscriptions. When payment is done successfully the notifications will be turned off. **SUBman** notifies the user when they are eligible for discounts on any of these applications.

TECHNICAL DETAILS

New members can sign up using the sign-up button. Thereafter users will be directed to a screen to enter their details like name, phone number, email, and password. Click the "next" button after completing the details. Users can select the apps they have subscribed to, and the date they made their purchase. After successful completion of all the procedures, the user will get notified three days before and also the day subscription ends.
